TURBOKITS

by REDLINE ENGINE PERFORMANCE

Redline Performance turbo kits are the best value on the market and are made from high quality components and materials. Our kits have an instant, crisp, and clean throttle response. They're the perfect kit for tree banging, boon-docking and trail riding and are still powerful enough to pull chutes! Our kits are engineered to produce the best power while staying efficient. Big power at low boost is efficiency! Our intake and exhaust components are designed using fluid dynamic modeling software. Reliability was the main focus and every component was designed to last in the gruelling environment we ride in. Nothing is more important to us than your satisfaction! As the designer and manufacturer of Redline Performance fuel systems, and with 15 years of competitive road-racing tuning, we have an intimate and unmatched knowledge for building turbocharging kits. We guarantee you will not find a better product out there especially at our prices.

OUR TURBO KITS

- Redline Engine Performance fuel controller SIC, AIC, or HO version with elevation compensation.
- RPM GT3071RS, GT2871RS, or GT2864RS turbo with BOV.
- 3" inlet uses stock airbox.
- Stainless steel exhaust components.
- Self-contained oil lubrication system.
- Precision engineered and crafted large volume air box; CNC'd collars and fittings.
- Redline Engine Performance custom clutch kits.
- Innovate MTX wideband Air / Fuel and 0-15psi boost gauge with pods and mounting bracket.
- Custom formed 2.5" high flow silicon charge tube.
- All other required hardware.

LINECRAFTSUSPENSIONPRODUCTS

by REDLINE ENGINE PERFORMANCE

Our full Line Craft suspension is designed so you can smash whoops on the trail at full speed and climb the most technical chutes. The key to this versatility is the design. Coupling distances and set points are optimized so the suspension can travel fully at trail coupling set points and then offer coupling resistance when set to climb mode.

\$4250.00 + tax

FULLSUSPENSION

HYBRIDSUSPENSION

The Line Craft Suspension system is designed to give the rider maximum performance for their dollar. Climb chutes with no ski lift or turn it down and boondock with skis up all day! Bred from the Line Craft suspension line, the hybrid suspension system retains your rails, front torque arm, and front shock. Comes with hydraulic lock out.

\$2399.00 + tax

Our coil elimination kit for Ski Doo sled models is a way to gain proper damping, low sticktion, spring rate and overall compliance on or off the trail. Need to keep your skis down? Need skis in the air? No problem! There are many ways to set the suspension up. Comes with hydraulic lock out.

\$2399.00 + tax

COILELIMINATIONKIT

DROPBRACKETS

Redline Performance has developed strengthening drop brackets that do not require cutting of the tunnel or removal of your drop brackets. Simply slip our brackets over top of your stock ones and rivet / bolt in. Looks clean and strengthens your tunnel and drop brackets.

\$349.00 + tax

OTHERSLEDPRODUCTS

by REDLINE ENGINE PERFORMANCE

The shark tether is our answer to endless aftermarket tether failures. This product utilizes the Ski Doo RFID teather post and RFID key. It comes with the Redline Performance shark box that grounds your engine kill circuit when the tether is pulled from its post. Simply wire in power and ground and then kill your wire.

\$299.00 + tax

SHARKTETHER

All parts are made from Vibrant Performance 304S stainless and we use a full stainless resonator with stainless wool pack. The can has excellent flow and has a classy low note. Put some miles on these beauties and they will never rust or have paint fall off. All welds are guaranteed for life! Available for: Ski Doo XM, Ski Doo 850, Polaris AXYS, Yamaha Sidewinder, Arctic Cat 900 platforms.

PREMIUMEXHAUSTCANS

\$350.00 + tax

This clutch was developed for the Ski Doo 800XM and the Ski Doo 850. Many weighting options equal versatility that allows us to optimize your kickup, spool (if turboed) and offer better on and off performance. Cooler clutches, better belt life and overall performance! (weights not included in price; must be purchased separately).

\$1300.00 + tax

PERFORMANCECLUTCH

OTHERSLEDPRODUCTS, CONT'D

by REDLINE ENGINE PERFORMANCE

Redline Engine Performance understands your need to have a hot meal on the hill and has made its own line of "Moven" style cooker cans! These cooker cans are made from full stainless steel and built to last. For the fall of 2019 we will be releasing each model as they are completed. Our exhaust cans are all elevation!

COOKEREXHAUSTCANS

\$449.00 + tax

New for 2019 is the Redline Engine Performance Skidoo 850 G4 big bore kit, in two flavours: Stage 1 and Stage 2. 912 Big Bore Stage 1 Kit comes with all the mechanical you need to get going: piston kit, cylinders, cylinder head, power valves and gaskets. The Stage 2 kit also includes Jaws performance pipe, Powder Freaks big bore head, and our NA fuel controller.
